

LOVE ADRENALINE ?

🪂 If YES, then tandem jump is the right thing! After a short pre-jump briefing, you'll enjoy the thrill of freefall and even learn the basics of piloting and landing a modern "ram air" glider. With a parachute specially designed for two people, you board the plane and ascend to a height of approximately 4 km. When you jump out of a plane, you will be falling at about 190 km/h and will descend 1500 km in about 45 seconds. At this point your instructor will open the parachute and you will fly back to earth safely! During the free fall and about six minutes under the parachute, you will enjoy breathtaking and unique views of beautiful Cyprus 😊 Write to me for more information and reservation. 🪂

IMPORTANT INFORMATION

Please be aware of the following important requirements:

we have a maximum weight of 95.4 Kgs (that's 15 st in old money) and the weight is clothed + shoes. Your BMI should not be excessive either and the Tandem Instructor may ask you to step on the scales.

You will be required to sign a medical declaration. If you are unsure you qualify, please refer to the BS Tandem Student Medical declaration form and guidance notes, form numbers 115A & 115B.

the cost is 250 Euros per person, credit card payment is available.

Filming will add 100 Euros per person. We cannot share filming cost between two or more people as each Tandem student has their own dedicated cameraman assigned to them.

TANDEM

Tandem (per person)	€250
Tandem Video (per person)	€100
